

ISH KUMAR

Tohana, Haryana | +91 94675-34977 | ish.kumar.personal@gmail.com | linkedin.com/in/ish-kumar-475aaa337 | ishdev.online

PROFESSIONAL SUMMARY

BCA graduate and MCA student with hands-on experience in full-stack web development, AI integration, and software development lifecycle (SDLC). Proficient in HTML5, CSS3, JavaScript, Node.js, Next.js, WordPress, Python, and Salesforce. Proven ability to build responsive web applications, AI-powered platforms, real-time auction systems, and game engines with custom physics. Strong analytical, problem-solving, and agile development skills with a track record of delivering client-ready digital solutions.

PROFESSIONAL EXPERIENCE

WordPress Developer | CASJ, Haryana Nov 2025 – Jan 2026

- Built responsive websites using HTML5, CSS3, and WordPress ensuring cross-platform compatibility
- Worked on client projects involving page design, layout architecture, and UI/UX improvements
- Collaborated with team to deliver projects on time following agile development practices

Web Designing Intern | Totem, Kurukshetra Jul 2025 – Sep 2025

- Managed company social media presence by creating and posting content across multiple platforms
- Developed websites using WordPress, HTML, and CSS to support digital marketing campaigns

KEY PROJECTS

ArtBid Hub | *Next.js, Node.js, AI Integration* | artbid-hub-rphs.vercel.app

- Developed a full-stack AI-powered art auction platform with real-time bidding, community gallery, and AI art generation studio
- Built with Next.js and Node.js supporting 100K+ creators, 500K+ artwork listings, and live auction functionality

Space Warfare – HTML5 Canvas Game Engine | *JavaScript, Canvas API*

- Developed a high-performance game engine with 60fps particle systems, advanced collision detection, procedural AI, and zero-gravity physics simulation

Gravity Hack – Physics Puzzle Game | *JavaScript, Custom Physics Engine*

- Created gravity manipulation puzzle game with custom physics engine, dynamic level generation, and quantum mechanics simulation

Ghumo Holidays | *WordPress, HTML, CSS* | ghumoholidays.com

- Developed travel agency website with responsive design, booking interface, and content management system

EDUCATION

Master of Computer Applications (MCA) | Kurukshetra University, Kurukshetra 2025 – 2027 (Pursuing)

- Currently in 1st year — developing advanced skills in software architecture and application development

Bachelor of Computer Applications (BCA) | Kurukshetra University, Kurukshetra Graduated: May 2025

- CGPA: 7.77/10 — Completed studies in programming, software development, and database management

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, Responsive Design, Canvas API

Frameworks & Libraries: Next.js, Node.js, WordPress, Custom Theme Development

Programming Languages: JavaScript, Python, Apex

AI & Automation: Generative AI, Prompt Engineering, Python Automation, Neural Networks, NLP

Database & Cloud: DBMS, Salesforce Admin & Development, Linux

Tools & Practices: Git, Version Control, MS Office, Performance Optimization, Mobile Responsiveness, Agile Development

ADDITIONAL INFORMATION

Languages: Hindi (Native), English (Professional Proficiency) | **Core Competencies:** Full-Stack Development, AI Implementation, Game Development, Problem Solving, Analytical Thinking, Performance Optimization
